1. The Amendment filed on August 23, 2004 has been entered.
2. The following is an examiner's statement of reasons for allowance: the Examiner agrees with Applicant's arguments on page 5 of the Amendment that even if one of ordinary skill in the art were to change the number of Romero's fastener opening as claimed, there is no suggestion to rearrange the structure of the holes of Romero in the complementary manner as required by the amended claims. The Federal Circuit states that, "[t]he mere fact that the prior art may be modified in the manner suggested by Examiner does not make the modification obvious unless the prior art suggested the desirability of the modification." *In re Fritch*, 972 F.2d 1260, 1266 n.14, 23 USPQ2d 1780, 1783-84 n.14 (Fed. Cir. 1992) citing *In re Gordon*, 733 F.2d 900, 902, 221 USPQ 1125, 1127 (Fed. Cir. 1984).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Other:

Applicant's identification of Application number on pages 2-6 of the Amendment is erroneous. The Application Number of this application is 10/750,923, however, Applicant identified as Application Number 09/476,455. Applicant is respectfully urged to correctly identify the Application number in all correspondence with the Office in order to avoid delay in matching of the paper with the file of the application.
